Abstract

The present invention relates to a polyoxymethylene molding composition comprising:

- (A) from 0.1 to 5.0% by weight of a compatibilizer,
- (B) from 5 to 50% by weight of an impact modifier,
- (C) the remainder to 100% by weight of a polyoxymethylene.

The molding compositions of the invention have substantially improved mechanical properties, in particular impact resistance.
